PRIYANKA K

Full-Stack Developer

Chennai, Tamil Nadu | priyankapriy81@gmail.com | 9360549665 | linkedin.com/in/priyanka-k

PROFESSIONAL SUMMARY

Computer Science undergraduate (CGPA 8.87) specializing in full-stack development with hands-on experience building Python-based web applications using Flask, MySQL, HTML/CSS/JavaScript, and PHP. Proven ability to design and deliver end-to-end applications including AI-driven tools, secure authentication, and database-backed systems. Strong foundation in data analysis and machine learning from a Data Science internship. Seeking an entry-level Full-Stack Developer role to apply Python/Django/Flask skills in a production environment.

TECHNICAL SKILLS

- Languages: Python, Java, C#, JavaScript
- Backend / Frameworks: Flask, Django (working knowledge), PHP
- Frontend: HTML, CSS
- Databases: MySQL, MongoDB
- Tools & Platforms: XAMPP, Git

PROJECTS

Resume Ranking System with AI & Mock Interviews *Python (Flask), HTML, CSS, MySQL*

- Built a Flask-based web application with a resume analyzer that scores resumes against job-role relevance and suggests improvements.
- Developed an AI-powered mock interview module simulating real-time MNC-level interview scenarios.
- Designed and integrated a MySQL database for efficient candidate assessment and tracking.

Online Course Reservation System *HTML, CSS, JavaScript, PHP, MySQL, XAMPP*

- Developed a full-stack web application enabling users to browse, search, and reserve courses by department.
- Implemented secure login, step-by-step registration workflow, and an admin panel for course management.
- Built and integrated a MySQL backend using PHP on an XAMPP server environment.

Pedestrian-Friendly Urban Design with Smart Safety Alarm System *Hardware / IoT-based*

- Designed an ambulance-detection alarm system to improve pedestrian safety at street crossings.
- Implemented real-time voice alerts to guide pedestrians, reducing crossing-related accident risk.

INTERNSHIPS

Data Science Internship — Kaashiv Infotech

- Gained hands-on experience in Python, data analysis, machine learning, and predictive modeling.

Salesforce Developer Internship — SmartInternz

- Built custom solutions using Apex, Lightning Web Components (LWC), and automation tools.

Java & C++ Internship — Cybernaut

- Strengthened core OOP concepts through real-world problem-solving exercises in Java and C++.

AI & Cloud Technology Internship — Edunet Foundation (IBM SkillsBuild / AICTE)

- Completed a 4-week program on Artificial Intelligence and Cloud Technology.

EDUCATION

B.E. Computer Science and Engineering — Mahendra Engineering College *2022 – 2026*

- Overall CGPA: 8.87

Higher Secondary — Yuva Bharathi Matriculation School, Salem *2021 – 2022*

- Percentage: 73%

CERTIFICATIONS

- UiPath Certified Professional Automation Developer Associate
- SnowPro Associate: Platform Certification — Snowflake
- Artificial Intelligence Primer, Java Foundation & Principles of Generative AI — Infosys Springboard
- NPTEL Certificate — Cloud Computing and Internet of Things
- NoviTech Fullstack Developer Certificate
- MongoDB Certificate
- Artificial Intelligence and Cloud Technology — Edunet Foundation
